Subject: RE: Repairs to church clock at St. Mary's Upavon Part 2

Dear All,

Section 2 of the Parish Councils Act 1957 states that:

A parish council may provide, maintain and light such public clocks within the parish as they consider necessary, and (subject to the provisions of section five of this Act) may cause them to be installed on or against any premises or in any other place the situation of which may be convenient.

Repairs to church clock at St. Mary's Upavon

Dear All,

Alas, as village residents have already noticed, our church clock no longer chimes on the quarter.

This is due to metal fatigue and we have received the attached quote of £515 (plus VAT of £103) to effect the necessary repairs.

St Mary's PCC shall be most grateful if the council could consider us for a grant on this particular occasion. I will apply for the VAT element to be refunded to us pursuant to the Listed Places of Worship Grants Scheme.

Kind regards,

Donal F Connon
Treasurer
St Mary's PCC Upavon
